

# Saturday, Nov. 24th we begin our Great Annual Thanksgiving Sale.

An unprecedented offering made doubly remarkable by the increased facilities of our new store and recent purchases from sacrificed manufacturers and over importers.  
**Great Quantities of spot cash things having been bought from Domestic manufacturers crippled by tariff shuffling.**

We are steady-going merchants, going along a straight road day by day, drawing in every lot of good merchandise as low as cash will take and putting it out as fast as we can by our low and fair prices on everything to everybody alike, in order to keep a running stream of fresh, bright, new things—always greatly to our customers advantage.

We keep close to our customers interest, protecting them at every point, because, if for no other reason, it is to our business advantage so to do.

By steady sales—by far the largest in this section of the State. We are compelled to replenish daily and systematically and thus we maintain a constantly fresh, new, complete stock. It is possible for a store to outlive its value to a community—by its conceits, its ruts, its independence, its assumptions, but this store is only a child learning to do its work.

## This Store is more than a store—it is an Educator.

It has certainly been the **step-mother to a new order of retailing** which we are glad to see adopted in some part or another by business men in Hopkinsville. There are still new ideas left, however, which are appearing from time to time in our business.

## We assure protection to all buyers of everything sold under our roof.

By no possibility shall any person buying of us have it to say that he paid more than the same quality is sold elsewhere in America, but on the contrary, as often as possible the people shall buy here for less than anywhere else on the continent.

This sale will continue until **SATURDAY, Dec. 1st.** Let the news speak; let customers show their purchases to their neighbors; let everybody look over our house whether they think of buying or not.

## Ayer's Sarsaparilla

"Several years ago, my blood was in bad condition, by system all run down, and my general health very much impaired. My hands were covered with large sores, discharging all the time. I had no strength nor energy, and my feet were miserable in the extreme. At last, I commenced taking Ayer's Sarsaparilla and, to my surprise, found that it renewed strength. Encouraged by this result, I kept on taking the Sarsaparilla, till I had used six bottles, and my health was restored. I am now as well as ever. Prop. H. H. Thompson, N. Dak."

### Important to Invalid Ladies.

Dr. Kilmer—I have never seen anything give relief so quick as your life-saving remedy, Olive Branch. The sale of it is increasing in this part of the country. It is surely the ladies' great friend.  
 Mrs. N. S. Hinson, Agent,  
 Stanley Creek, N. C.  
 For sale by R. C. Hardwick.

There is no advantage in poor hay, however mixed.

Henry Wilson, the postmaster, at Welahatch, Florida, says he cured a case of diarrhoea of long standing in six hours, with one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. What a pleasant surprise that must have been to the sufferer. Such cures are not unusual with this remedy. In many instances only one or two doses are required to give permanent relief. It can always be depended upon. When reduced with water it is pleasant to take. For sale by R. C. Hardwick, Hopkinsville, and Ed R. Bogard, Lafayette, Ky.

Lime aids in rendering other plant foods available.

For a pain in the side or chest there is nothing so good as a piece of flannel dampened with Chamberlain's Pain Balm and bound on the seat of the pain. It affords prompt and permanent relief and it used in time will often prevent colds from resulting in pneumonia. This same treatment is a sure cure for lumbago. For sale by R. C. Hardwick, Hopkinsville, and Ed R. Bogard, Lafayette, Ky.

Weeds in an unripe cornfield may be killed by sheep.

For enlargement of the liver, and other liver affections, Ayer's Sarsaparilla is best.

Raw manure is not a fertilizer; it must first be rotted.

Third Month and Nervous. The quickest, safest, and sweetest relief for the tired brain and nervous system comes from using Dr. King's Royal Germetizer. As a nerve tranquilizer and tonic, it has never been equaled. Dr. L. D. Collins, Goldsboro, Tex., says of it: "It is the finest nerve tranquilizer I have ever used. Geo. W. Armstrong, Editor of The Issue, Nashville, Tenn., says: 'It is an invaluable builder and invigorator of the nerve force.' \$1.60 for \$5. For sale by all druggists.

Medium-sized quick-maturing animals are in demand.

The first gray hair should be a warning that the scalp needs the strengthening applications of Ayer's Hair Vigor. Don't delay.

W. A. McGuire, well known citizen of McKay, Ohio, is of the opinion that there is nothing so good for children troubled with colds or coughs as Chamberlain's Cough Remedy. He has used it in his family for several years with the best results and always keeps a bottle of it in the house. After having lagged he was himself troubled with a severe cough. He used other remedies without benefit, and then concluded to try the child's medicine and to his surprise it light it soon effected a permanent cure. 25 and 50 cent bottles for sale by R. C. Hardwick, Hopkinsville, and Ed R. Bogard, Lafayette, Ky.

# FLYING FISH.

Remembered a Ship From the Big Ocean—  
 "My experience in midwinter last year with swarms of flying fish is one of the most pleasing incidents that ever took place in any of my ocean voyages," said Samuel W. Young. "I was in a voyage from San Francisco to Hong Kong, China, on board the magnificent steamer Helge. The trip across the continent on 'Tico' pretty well tired me out and by the time we were out of the Golden Gate I was overcome by the god of the sea. The voyage for a week was very monotonous. When midwinter was reached we encountered the aftermath of a typhoon that had evidently passed only a day or two before. The sea was very rough and great swells like mountains arose and receded, causing our great ship to sway to and fro, almost to an angle of forty-five degrees. At first we were frightened, but as it kept up for three days and nights we got used to it.  
 "During this mighty rocking a swarm of flying fish could be seen to leave the mountains of water as they were rolled up. The fish would fly across the valley of water and enter the next mountain as it followed. They seemed determined on a straight course, despite the ragging of a great tide. Once as this steamer moved one of the fish flew over the side of the ship and fell into the water. It turned fearfully to one side a swarm of these freaks, few right into the ship on the lower deck. What a feat it was to the passenger! Every passenger claimed one of the poor captives. They were not larger than an ordinary herring and were perfectly shaped, only they had two wings, well formed that it was a matter of taste or convenience to them whether they would fly or swim. I secured several of the one I got and placed them in a book, which has been a great curiosity to those who never saw a real flying fish, and to carry away the test of the merits of the sea sport had the steward to serve the fish for my dinner that afternoon, which was a very delicious dish."

**LINCOLN'S VIEW OF THE MOON.**  
 Could'st understand Why the Moon Looked Upride Down.  
 From 1863 to 1866 Professor Asaph Hall worked on the nine-and-a-half-inch equatorial at the naval observatory under the same circumstances making observations and reducing his work. One night, while he was working alone in the dome, the trap door by which it was entered was below opened and a tall, thin figure, crowned by a stovepipe hat, arose in the darkness. It turned out to be President Lincoln. He had come up from the White House with Secretary Stanton. He wanted to take a look at the heavens through the telescope. Asaph Hall showed him the various objects of interest and finally turned the telescope on the half moon. The president looked at it a little while and went away. A few nights later the trapdoor opened again, and the same figure appeared. He told Professor Hall that after leaving the observatory he had looked at the moon, and it was not long before he had seen it through the telescope. He was puzzled and wanted to know the cause, so he had walked up from the White House with Secretary Stanton explained to him how the telescope gives an inverted image, and President Lincoln went away satisfied.

**LONG LOST DAUGHTER.**  
 She Must Be Found to Complete a Romance.  
 Charles Chiquette, formerly of Chicago, has called the police of Buffalo, N. Y., to help him find his daughter, Mrs. Isaac Stibbing. Chiquette said he and his wife lived in Buffalo forty years ago. They finally moved to Chicago. There a child was born thirty-three years ago. She was named Clara. Chiquette and his wife quarreled twenty years ago and separated. His wife embarked in business. She made money rapidly. Her daughter, nine years ago, was married to Isaac Stibbing, the advance agent of a circus. They left her to the Chicago to live. The girl's mother died a few weeks ago in Chicago. When her will was opened it was found she had bequeathed all of her fortune to her husband and her child. The police believe they will be able to restore the missing woman to her father.
